Steve Warfel, Camp Security Archaeologist

It is with great sadness that The Friends of Camp Security announce the passing of our beloved Camp Security Archaeologist, Steve Warfel, on May 14, 2020. Steve was more than just a qualified, exemplary archaeologist to the members of FOCS. He served as an ambassador for our mission of preserving, interpreting, and commemorating Camp Security for future generations. His enthusiasm for the project was infectious, and he greatly impacted all the people he touched. Anyone who met Steve, knew him to be a patient, understanding, and caring friend.
